PRESS RELEASE

Subject: BOSCH REXROTH AND YACHT CONTROLLER ANNOUNCE COOPERATIVE AGREEMENT

BOSCH REXROTH AND YACHT CONTROLLER ANNOUNCE THE IMPLEMENTATION OF THE YACHT CONTROLLER DUAL BAND DOCKING SYSTEM WITH THE ELECTRONIC CONTROLS MADE BY BOSCH REXROTH

The German Multinational and the Italian Company have signed an agreement to work together using an integrated system between the Wireless Controller “Yacht Controller Dual Band” and the electronic Control Heads produced by Bosch Rexroth

Milan, 1st September 2010 – It has taken two years of technological development which has led to the formalization of an agreement between Bosch Rexroth AG and Yacht Controller S.r.l., which allows the new wireless controller for docking made by the Lombardy, Italy Company to be connected, even more simply and in total safety, with the electronic controls for engines manufactured by the German giant for important marine engine manufacturing companies.

Following this agreement, which took place on July 28th in Hanover Germany, Bosch Rexroth will produce and supply Yacht Controller with an exclusive interface, through which Yacht Controller Dual Band can integrate the Bosch Rexroth electronic system.

For Bosch Rexroth the agreement follows their Corporate Philosophy which constantly focuses towards the most reliable and innovative solutions.

For Yacht Controller, being a partner of a world giant such as Bosch, confirms and strengthens the credibility and the standing of the Italian Company in the international nautical world.

BOSCH REXROTH

Bosch Rexroth AG is one of the world's leading specialists in the field of drive and control technologies. Under the brand name of Rexroth the company supplies more than 500,000 customers with tailored solutions for driving, controlling and moving.
