# YACHT CONTROLLER TIMELINE

Yacht Controller®, protected by national and international patents, was launched in 2003 to offer wireless remote control for easy, precise boat maneuvering. The slogan “wireless freedom to control your boat from anywhere on board” has become a reality for over 30,000 users worldwide.

Within a year of its launch, Yacht Controller® won the NMMA Innovation Award for “Best Technological Innovation” at the 2004 Miami International Boat Show. It has since evolved into multiple versions, including a waterproof, floating model with Dual Band frequencies and up to six functions.

In 2014, the European Innovation Product Award recognized the Joystick Control System (JCS). Yacht Controller® can be installed with all electronic and manual controls currently available on the market, ensuring both safety and reliability without altering the vessel’s original equipment.

# OUR MODELS

## OPTIMO™

The Next Generation in Wireless Control for Center Console Boats, Trawlers, and Cruisers up to 50ft.

## MAXIMO™

Powered by a 64 bit Quad Core processor for added redundancy expanding the system for newly launched features and many more to come.

## SUPREMO™

The latest in wireless control for super and mega yachts with open air range of over 600ft.

## DPS

Dynamic Positioning System capabilities brought to you by the most trusted name in handheld & remote yacht control!

## JCS

Effortlessly navigate & dock with 360° precision, transforming your boating experience with intuitive control and seamless maneuverability.

## YACHT CONTROLLER®

Yacht Controller® is the key to wireless control of a yacht while docking and maneuvering. With over 30,000 installed systems on more than 180 brands of yachts; ranging in size to over 250 ft, the flawless proven security and dual band dependability of Yacht Controller® allows yacht operators to confidently control the movement of their yachts from anywhere on board with absolute precision.

## YACHT CONTROLLER®

**NO MATTER WHAT SIZE,  
WE'VE GOT YOU COVERED!**

VESSELS UP TO 200' **SUPREMO™**

VESSELS UP TO 80' **MAXIMO™**

VESSELS UP TO 50' **OPTIMO™**

## OPTIMO™

### SEAMLESS DISPLAY MIRRORING ON MULTIPLE DEVICES

Compatible to mirror the receiver display on Garmin, Raymarine, other navigational screens, tablets, etc., for easy viewing.

### VERSATILE MULTI-FUNCTION CAPABILITY WITH EASY SELECTION

The ONLY wireless control with TWO frequency communication on multiple channel frequencies for redundancy.

### REMOTE WI-FI ACCESSIBILITY VIA VPN

The only wireless yacht remote with reconfigurable capability through VPN via Wi-Fi. Covered by Patent No. 12,077,273.

### RADIO SPECTRUM ANALYZER

Eliminate signal issues with the Radio Spectrum Analyzer, which optimizes signal strength and ensures reliable control.

### MULTIPLE CHANNEL COMBINATIONS ON DUAL BAND FREQUENCIES

Multi-functional capability for dual anchors, swim platforms, and cable masters. minimal interference.

## MAXIMO™

### INTERFERENCE-FREE PERFORMANCE

64-bit quad processor receiver, capable of scrolling through 100+ channels for interference-free, secure redundancy.

### INSTANT ENGINE SPEED CONTROL

Quickly select and adjust five preset engine speeds via your smart device

### GLOBAL REMOTE WI-FI ACCESS

Remote Wi-Fi accessibility via VPN for real time customer service, upgrades & modifications from anywhere in the world!

### SEAMLESS DISPLAY MIRRORING ON MULTIPLE DEVICES

Compatible to mirror the receiver display on Garmin™, Raymarine™, other navigational screens, tablets, smartphones, etc., for easy viewing.

### RELIABLE TWO-WAY COMMUNICATION

Two-way communication between remote and receiver.

## SUPREMO™

### 200M+ COMMUNICATION RANGE

Open air communication ranges exceeding 200 meters.

### LONG-RUN CAN-BUS EXTENSION WITH DIGITAL SERIAL CONNECTION

Digital Serial Connection supports long Can-Bus extensions without signal loss, unlike coaxial cables.

### ENHANCED POWER & REDUNDANCY WITH EXPANDED CHANNELS

Remote Wi-Fi via VPN for global support and updates.

## DPS

### SAFETY

Maintains a stable platform in bad weather or near hazards.

### EFFICIENCY

Reduces anchor use, protecting sensitive seabeds.

### ECONVENIENCE

Keeps the yacht stationary over points of interest like reefs or fishing spots.

## DOCKING, MANEUVERING, & ENHANCED CONTROL

# THE YACHT GROUP COM

featuring **YACHT CONTROLLER**

The Yacht Group™ stands at the forefront of luxury marine products, backed by a team of seasoned professionals with extensive expertise across all aspects of the marine industry. Our unwavering commitment to delivering exceptional service sets us apart as a trusted partner for discerning clients around the world.

Innovation is at the heart of everything we do. Through our global network of R&D, engineering, and manufacturing teams, we develop cutting-edge solutions tailored to meet the unique needs of our clientele. This collaborative approach ensures that we remain at the forefront of advancements in marine technology and yacht management.

With an extensive network of sales and service dealers worldwide, we provide seamless access to our expertise and services wherever our clients operate. From consultation to implementation, The Yacht Group™ offers a world-class experience, ensuring our clients receive the finest in marine technology and support.
